

Partial list of available items; Call or email to be sure that I bring what you are looking for. You can reach me by email jim@omnicorp.net or phone 973-209-7610.

DEC PDP8E/A/F/M Boards ... Many Types;

M868	TD8E DECtape Controller
M8350/M8360	Positive I/O Bus & Data Break
M843	Card Reader Control (May have a Card Reader Too!)
M863	12 Channel I/O
M882	Line Clock
M8323	And 3 more modules that make TM8E MagTape Control
M8342	Parallel I/O; Line Printer Control (Centronics or DataProd)
M8366	LQP8E Interface for LQP01 (For 8E/8A WPS System)

DEC PDP11 Q-Bus and Unibus Boards ... Many Types

M7810	Paper Tape Reader Control for PC04/PC05
M7910	Parallel Printer Centronics/DataProducts
M7892	TU60 Cassette I/F
M8291	PDP11 Card Reader Control
11/40	CPU Boards – Various
M8639	RQDX2 – Q-Bus Ctlr for MFM HDD & RX50 5.25” FDD
M8044	DEC 32Kb Dual Wide RAM for Q-Bus
M7264	KD11-F – Original LSI 11 Module w/4K RAM
Boot	Dual wide Terminator Boot for Q-BUS
Boot	Boot ROMS - 11/23 & 23+ w/New Devices (Moto 68764)
NS23M	National Semi – 256KB Dual Wide RAM for Q-Bus
RX21	Plessey Q-Bus Ctl for Std 8” Floppy – Emulates RX02
BDV-11	Quad Wid Terminator Boot Board for Q-Bus
RRD50	Table Top CD Drive & Q-Bus Controller – No Cable (Yet).
RKV11	RK05 Controller for Q-Bus – DataRAM/Dynus
TU58	Emulation on 5.25” FDD for PDP8 or PDP11

USDC 802-220-TB Hard Disk/Tape Backup for PDP8/11/Q-Bus – 50 Pin I/F
Table Top Unit, Complete, Probably SASI/SCSI

DataRam A21 Chassis Q-Bus System – Power Supply, 8 Slot Q-22 Backplane
Power Supply, 1 or 2 8” Floppy Drives (TM848)
Controller Card for FDD, Space for 5.25” FH Winchester
Multiple Systems Available, New/Used w/wo 11/23 or
11/73 CPU, DLV11J, RAM or Other Cards

DEC Print Sets & Manuals – Mostly undesirable for my own needs (older PDP8/11 CPU & peripherals), but if there is something specific people need and make requests I will look for them.

Not Bringing: Multiple PDP8E/8A Systems w/H960, H950 (new), TU56, RX02, RK8E, RK8L, PC04 Reader/Punch, ½” MagTape Drives, etc.

For PiDP8

V. Small Thermal Printer w/USB I/F to connect to RazPi
Parallel printer, USB I/F Arduino based to be built by user.

DEC Terminals

LA34	Table Top Keyboard/Printer Terminal (Multiple Units)
DS180	Board Set to turn LA36 into HS Printer Like LS120/LA120
LA120-RO	Dot Matrix Printer – No KB
LA120/LS120	Full Printing Terminal – HS/FAST Multiple Units including LA36 WITH DS180 Upgrade
VT420	Terminal, new condition, no keyboards
LA36	Power Boards (Many)
LA36/120	Carriage Motors
RX02	Control Boards (Can convert RX01 to RX02)

RK05/Diablo 31 Disk Drives – (2) each NOT in perfect condition

RL01/RL02 Disk Packs Many unused w/software distribution on them.
RK06/07 Disk Packs

Iomega Bernoulli Boxes – Multiple Units w/SASI/SCSI I/F, can emulate RL02
10/20Mb Units F/H Side By Side and HH over/under, also cartridges for same.
Multiple Units Available.

Micro Fiche Reader – DeskTop Style (not portable suitcase unit)
DEC MicroFiche – Manuals, Diagnostic Listings, etc.
VMS Manuals (New Sealed).

Paper Tape Reader – Non-Dec unit, connects to serial port, behaves like teletype reader,
My own circuit design, variable baud rate.

Paper Tape Reader – Non Dec, Nice unit with DEC panel mounting,
but no interface electronics.

Floppy Drives – 8” Industry Standard I/F
Dilog and Emulex Controllers – Q-Bus and Unibus
TT/RM Chassis w/40MB HD & 10Mb Cartridge Drive SASI/SCSI I/F
TT/RM Chassis w/DC600 Type Tape Drive & Space for 5.25” HDD
DEC Laser 2200 Printer (Like HP3SI, Canon SX engine HP II/III Toner Carts)
Older Q-Bus Modules; Quad Wide (Original) 11/03 CPU, M8044 Memory (32Kb ea),
Magtape Drives – Cipher F8880/890, Kennedy, etc.
DEC LQP01 Daisy Wheel Printer (Made by Diablo)
Various larger/fast/HD printers w/Centronics I/F

Power Supplies +/-15V suitable for Diablo 31 and LQP01
Not OEM unit found w/DEC devices, but well beyond required specs

Other Vintage DEC & Non-DEC items;

PC	IBM PC – Original PC/XT Version
PC	IBM PC – Clone Version of PC/XT
CRT	12” Monochrome – Composite Video – For Apple II
CRT	12” Monochrome – 9 Pin for PC
CRT	12”/13” Original IBM Color CRT for PC – 9 Pin CGA
ISA	8/16 Bit MFM Hard Disk Controllers, Video Cards, Network Cards
ISA	Expansion Chassis for PC AT/XT to Add Extra Slots
ISA	12 Slot 16 Bit ISA Passive BackPlane – Divergent Technologies Inc.
CUBIX	Cubix Cards to Add Multiple XT/AT CPU to above backplane Many Types New In Box!
MFM	Various MFM Disk Drives for DEC or Non-DEC applications
FDD	5.25” FH and HH disk Drives
EMULEX Commodore	MD211-0202 MFM (Hard Drive) to SASI/SCSI I/F Two or three systems w/peripherals.
DEC	RainBow 100; Multiple Chassis mostly not complete, Most include main board and power supply, no drives.
DEC	Pro350 – PDP11 System

Information/Discussion;

Using RQDX1/2/3 w/o DEC Chassis and I/F to Non-DEC MFM HDD & Floppy
Converting 18-Bit DEC Chassis to 22-Bit by Wire-Wrap/Jumpers
Using RK05/RKV11D 18 Bit Controller in Q22 Systems
Switching RX02 drive between multiple controllers/computers.
Using Non-DEC RK05 type disk drives w/DEC controllers
Including Diablo, Wangco, Pertec, several others.
